

## Model 575

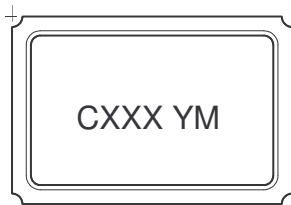

Product Description: 7.0x5.0mm SMT Voltage Controlled  
Temperature Compensated Crystal Oscillator

---

### *How to identify if a specific part is RoHS compliant:*

1. RoHS identification is based on the product **Date Code**. The **Date Code** is the date that the part was manufactured.
2. Model 575 voltage controlled temperature compensated crystal oscillator has been RoHS compliant from product date code **11**

Product Date Code identification:

YM is CTS product date code

Y : Year (example : 4 means 2004)

M : Month (example : 1 means January)
